

Our company PAO "Institute of Oil Transportation" for the eighteenth consecutive time passed this year an audit for compliance with international standards ISO 9001:2015, ISO 14001:2015 and BS OHSAS 18001:2007. We have great experience, but there is always chance for improvement. Each new audit provides important and valuable recommendations for improving our system. In addition, the requirements of international standards are increasing every year, which also contributes to the growth of our company.

Specialists of the international audit company SGS Ukraine confirmed the validity of the certificates for ISO 9001:2015 quality management, BS OHSAS 18001:2007 health management and labor safety. Also, PJSC "IOT" successfully passed certification according to the new version of the international standard ISO 14001:2015, which provides for the introduction of a risk-oriented approach to the environmental management system.

The auditors noted the flexible management policy for maintaining the efficiency of the enterprise, as well as the fact that the organization supports social programs, carries out unique projects, actively conducts technical training of employees.

The audit was held from April 16 to 23, 2018, and according to its results, PJSC IOT received confirmation of compliance of the developed system of improving the enterprise with the requirements of international standards.
