

CERTIFICATES

• **Certificate of concordance issued by the Ministry of Architecture and Construction of the Republic of Belarus to perform:**

1. Engineering surveys for construction of facilities (first to fourth grades of complexity):
 - 1.1. Operation as part of engineering and geodetic surveys;
 - 1.2. Operation as part geological engineering survey;
2. Development of pre (pre-investment) documentation.
3. Functions of general designer.
4. Development of certain sections of design documentation for the construction of the first to fourth grades of complexity:
 - 4.1. General layout and transport;
 - 4.2. Architectural solutions;
 - 4.3. Cost estimates;

4.4. Building solutions;

4.5. Internal engineering equipment, internal networks and systems (heat, refrigeration, water and gas supply, sewerage, heating, ventilation and air conditioning, electricity, electrical, lighting, wired radio and television);

4.6. External networks and systems (heating, water and gas supply, sewerage, electricity, communication, wired radio and television);

4.7. Process solutions;

4.8. Environmental protection, engineering civil defense measures, measures for prevention of emergency situations, fire safety, construction organization plan.

LICENSES

- **State Inspectorate of technogenic safety Ministry of Emergencies of Ukraine**

- Design of facilities of oil and gas complex of Ukraine, design of firefighting systems, automatic fire fighting equipment;

- **State industrial supervision Board of MOE of the Republic of Belarus, the Central Authority of the State Fire Inspectorate of Ministry of Emergencies of the Republic of Belarus**

- Carrying out activities in the field of industrial safety for the design of oil and gas pipelines, oil

products pipelines, carrying out activities to ensure fire safety;

- **Ministry of Urbanization and Construction of Georgia**

- Design of oil and gas facilities with fire automation systems in Georgia, performance of engineering surveys in all regions of the country.

- **Ministry of Environment of the Republic of Kazakhstan, Committee for Environmental Regulation and Control of Ministry of Environment of the Republic of Kazakhstan**

- For performance of works and rendering services in the field of environmental protection;

- **Agency for Construction and Housing and Utility Services of the Republic of Kazakhstan**

- Implementation of project activities in the field of architecture, urban planning and construction to the design of I, II and III levels of responsibility objects;

- Carrying out research in the field of architecture, urban planning and construction.

PERMITS

- **State Labor Supervision of Ukraine**

- Design of the main gas pipelines with working pressure up to 7.5 MPa.

- **Industrial Supervision of Ministry of Emergencies of the Republic of Belarus**

- Design of potentially explosive facilities and industrial objects, as well as design of steel tanks for oil and oil products storage.

AUTHORIZATION LETTERS OF

- **State Technical Supervisory Board of Georgia**

- Design and survey works at hazardous oil and gas facilities.

- **State Technical Supervisory Board of the Republic of Kazakhstan**

- Design of facilities of oil and gas complex of the Republic of Kazakhstan.
